KED

**KASCO  
 ECO-DRILL**

Utilizing a Unique Seed Metering Design, the Eco-Drill will allow you to plant a wide variety of seed sizes and types. An optional Warm Season Grass Box allows the Eco-Drill to plant native grasses as well. The metering system is ground driven for more consistent seeding. A standard 3-speed easy-change gearbox modifies the seed drop rate without the use of tools. Heavy 16" diameter notched coulters slice the ground. Single disc concave openers form the seedbed trench. Heavy Duty Cast Cultipacker Wheels firm the seedmet to ensure optimal seed-to-soil contact

WH-	KED-72	KASCO 3 point hitch no-till drill, 6 ft, category 1 & 2 hitch, notched coulters, 8 inch row spacing, 9 rows, 1385 lbs empty	\$11,995.00

**KASCO  
 NO TILL FOR ATV'S / UTV**

Model # KPCA-48, is a professional-level implement that can be used as a drill for planting row crops or as a broadcast spreader for seeding grasses. This deluxe combination unit can disk, plant, and cultipack all in one pass. When used as a drill it plants four rows, ten inches apart. Depth control and metering rate are fully adjustable. The entire unit is just 48" wide and all components in the lower area are free-rolling so it can be pulled behind an ATV or UTV to a remote food plot site.

WH-	KPCA-48	KASCO ATV pull type seeder/drill, 4 ft, 12 volt lift, 10 inch row spacing, 4 rows, 740 lbs empty	\$6,995.00
